I would suggest that you put the flags on the dam same as in Ob-H2766. The trees in the lower left corner of the photo are cedars. I would also suggest that you erase the small box like structures on lower side of dam near the parked autos. They are not there at present.

Two photos are supplied with this subject, the one with the tissue to work from. The other shows the sign on the corner, which has to be added to the working photo, and also the annex building which must show. Remove all other buildings at left and right. just show a shaded, tinted background, nice clouds, etc. I believe we can improve the style of type, in title, better than their old cards. Be sure to show the sign on the wall of the Annex Building. Also bring out tree shrubs in tubs at main entrance; Make building as large as possible, without cutting corners at top and bottom of building.

SEE TISSUE OVERLAY FOR FURTHER INSTRUCTIONS

COLOR DESCRIPTION

Brick is not a solid color, a mixture of tan and red, leaning towards the red about like #56 but not anywhere near as red as the competitors card. Detail on tile facing of building is important, but don't make it too harsh. This tile block stands out in relief, as it has a deep beveled edge. FOR FURTHER COLOR INSTRUCTIONS SEE TISSUE OVERLAY

COLOR DESCRIPTION

The general idea is to have base of subject look as if it is printed on parchment. The frame of rope around the picture is NOT to show. NOTE colored reproduction for a general idea, and note corrections. Parchment is of quite a little faded buff with faint indications of cracks or creases as you usually find on parchment. The large photo is the one to work from, inserting the brands, etc. as worked up. Customer thinks he has a little too much white space between ranch names, in other words too large and open all the way through, also a little shaky and ragged.
